## CITY LEGISLATORS.

Regular Session of the City Council  
Last Evening.

## LIQUOR LICENSES WERE PASSED.

Louis Bachellet Was the Only Applicant Who Was Turned Down—The "Nickel in the Slot" Machines Ordinance Passed—The Citizens' Railway Switch—Other Important Public Business Transacted.

Last evening a regular session of the city council was held. President Waterhouse presided in the second branch, and Mayor Caldwell occupied the chair in the upper branch chamber. After the minutes had been read and approved, the clerk read the list of applicants for liquor licenses in the city, numbering 123, as given in the INTELLIGENCER at the time they were acted upon by the committee on petitions and remonstrances. While the applications were being acted upon separately there was an unusually large lobby in attendance, most of them saloonkeepers, who only waited long enough to learn their fate, and then departed.

According to a resolution of council passed some time ago, when the principals in the application for licenses were absent, action on it was deferred. This happened numerous last evening. As the new licenses go into effect May 7, and there being no regular session of council before that time, several liquor dealers will be unable to keep "open house" on May 7 and 8. A regular meeting of council will take place Tuesday, May 8, when the absentees will probably interest themselves in their affairs enough to be present.

While the second branch was wrestling with licenses the first branch disposed of routine business. The report of the committee on streets, alleys and grades recommending the laying of a switch by the Citizens' Railway Company on North Main street was received, and the ordinance for the switch was read. Mr. Richards introduced a new section, providing that the company shall be governed by the provisions of the original ordinance granting it the right of way on Main street. The amendment was incorporated in the ordinance, after which it was passed as a whole, Captain Otto being the only member who voted "no."

The committee on real estate regarding the Elmiria Ripley lease on the city property adjoining the Pan Handle passenger station, recommended the lease be revoked. The ordinance covering this matter came up and was read. After the first reading Mr. Richards wanted to know something definite about the purposes of the Pittsburgh, Wheeling &amp; Kentucky Railway Company, regarding the time when they will commence work on their new station. Mr. Dobbins said work would have been commenced before now had the company been able to secure the property in question. Mr. J. B. Sommerville who was present said that work was to be commenced as soon as council revokes the lease on the property. No depot can be built, he said, until the lease is revoked. The reason the application for revoking the lease was not made before was because the lease was lost; it had by accident been found about a week or two ago.

Mr. Richards insisted on a resolution fixing the time of commencing work and finishing the building—to commence within six months and finish within eighteen months. Mr. Sommerville said such an amendment would mean a delay of several months. Mr. Robinson did not think the amendment pertinent, but the author contended it was entirely reasonable.

Mr. Sommerville remarked that the ordinance revoking the lease, with the amendments, would not go into effect until after the depot is completed—a peculiar condition of affairs. The amendment was finally defeated by a unanimous vote, after which the original ordinance was passed.

The committee on ordinances reported several ordinances. The report was received and the ordinances taken up. The first was the ordinance regarding "nickel in the slot" and similar machines. It provides a tax of \$4 to \$50 per annum, and entirely prohibits all chance machines. The ordinance was passed without opposition. The second ordinance was regarding itinerant vendors, and was accompanied by a petition in favor of it from a large number of business men. The ordinance provides that vendors must apply for permission to sell, from the city clerk, and must deposit with the clerk \$500 for one month, and \$500 for each additional month. The ordinance provides further for the fining of violators of its provisions, and prohibits alleged fire sales, unless they are bona fide. The fines range from \$50 to \$100. On the vote the ordinance passed.

It was 8:45 o'clock when the first branch had wound up routine business, and then a batch of liquor licenses already acted upon in the second were taken up.

In the second branch the application of Louis Bachellet was referred to council without recommendation. Mr. Maxwell moved the application be rejected; Mr. Hupp seconded. Mr. Milligan said the committee could find no sufficient reason to reject, and he would like to hear the reasons. Mr. Maxwell said the application is not recommended favorably, and for that reason he moved not to pass it. Mr. Gruse took it the committee had acted upon the matter in an indecisive manner. The city needs all the money she can get, and unless it is shown the house is disreputable he would vote in favor of the application.

The chair—I decide the matter out of order—the committee has not reported on the matter.

Mr. Gruse contended such a ruling might at any time obstruct important public business. Mr. Maxwell said there was virtually no report, but the report, he said, cannot be amended.

Mr. Maxwell said he objected to the application on account of the general reputation of the Bachellet place. Mr. Brock moved to refer back to the committee for recommendation, but it was lost by the following vote:  
Ayes—Britt, Brock, Hamilton, Hupp, Israel, Krieter, Maxwell, Morningstar, O'Malley, Zoehler, Waterhouse—11.  
Noes—Brill, Burke, Filan, Knoke, Milligan, Robertson, Warneke, Zwicker—12.The motion to grant the license was then defeated by the following vote:  
Ayes—Britt, Burke, Gruse, Keuny, Knoke, Milligan—6.  
Noes—Brill, Brock, Filan, Frew, Hamilton, Hupp, Israel, Killeen, Krieter, Maxwell, Morningstar, O'Malley, Robertson, Warneke, Zoehler, Zwicker, Waterhouse—17.

The petitions of A. J. Tolbert and E. M. Statler (2) to keep billiard rooms were passed upon favorably. The matter of compiling a list of city real estate was referred for action to the committee on finance.

The appropriation ordinance for expenditures in May was passed.

The ordinance regarding rules of the

city water board, read one time at the last meeting was again up for action, and Mr. Milligan moved the matter be postponed indefinitely. After some discussion the motion was lost by 9 to 10 votes.

Mr. Milligan next moved the ordinance be laid on the table and it carried by 14 yeas to 7 noes.

The committee on health reported bills, \$201.83; ordered paid.

The second branch took up the Powikly lease ordinance, and Mr. Milligan said, "Council has no more to do with this than the man in the moon." After considerable discussion a vote was taken on the ordinance, resulting in its carrying, 21 to 1, Mr. Milligan voting "no."

"That won't be the last of it," said Mr. Milligan.

The second branch passed the Citizens' Railway Company switch ordinance as it came over from the first.

The license and "slot machine" ordinance came up and Mr. O'Malley moved to strike out all reference to slot machines—to make their use prohibitory. Mr. Maxwell was in favor of endorsing the report of the ordinance committee. The question to strike out was lost. Mr. O'Malley then moved to increase the \$4 tax to \$50, and the others proportionately; the motion was defeated. The ordinance was then adopted.

The itinerant vendor ordinance was passed in the second branch without opposition.

An East First street citizen, Christian Loepke, asked for the extension of water mains; referred to the water board.

The team owners association asked for the re-establishment of the old rate of wages for city hauling, by the board of public works. It was moved by Mr. Zwicker that the request be granted by council and the motion prevailed.

At 10:50 o'clock the second branch adjourned. The first branch concurred in the action of the second in re-establishing the former rate of wages for the teamsters and then adjourned.

Automatic nickel-in-the-slot telephones are a Chicago experiment.
